PTH

CTR-FF5 (6058*2438*2991mm) FLAT-PACK CONTAINER HOUSE

Patented Technology

PTH owns patent of integrated roof PU foaming technology which makes the roof Thickness 70mm. The roof has an excellent performance, it can bear the weight of up to 1000kg, will never have the leakage issue and it has an outstanding degree of insulation.

Long Life-Span

PTH has the thorough quality control system. We ensure all the material we use for our products meet the particular standard. For the main frame, all steel material are hot-galavinzed, all wall panels are integrated processed. Overall leads to an up to 30 years life-span of the product.

Easy to Install

With the integrated roof and floor, the set up of PTH's flat-pack container is super easy. We also provide the detailed installation instruction drawings and video. For specific projects, we can send our engineers as supervisors on site.
